TRECO is a privately owned company, specialized in the development and manufacturing of low technology **postal equipment** such as P.O. Boxes, **Sorting Frames**, Trolleys and Counter Desks for Postal Companies as well as the manufacturing and assembly of small, high speed performance Letter Openers for private companies.

TRECO has its own **product development** department and modern production and assembly facilities in both Denmark and the Far East.

## SUBMITTING TENDERS

TRECO is highly experienced in **submitting tenders** and often works as a consultancy partner for the technical departments and other Decision Makers in the Postal business, where technical requirements, ergonomic issues and functionalities can be discussed informally in a pre-stage of the process.
